

48. INTERNATIONAL SKILEX CONGRESS

Cancellation

Berchtesgaden, Schönau -Königssee, GERMANY
06.03. - 13.03.2022

19th of January 2022

Dear members of Skilex International,

We hope you all are doing well.

Unfortunately, the situation with Covid is not going our way. At the moment we have a tough situation in Europe where many are sick in Covid. Yesterday the Skilex International board had a meeting with the German team. At the meeting it was decided to cancel the 48th International Congress.

We are all very sorry to have to make this decision, but the main issue is to have you - all members of Skilex International - best in our mind set, and therefor the decision must be to cancel the congress once more.

The German team, who has been working hard since spring 2020 with planning the congress, have announced that they with joy wants to arrange the 48th International Congress in Berchtesgaden 2023. The Skilex International board is very grateful for this and the big enthusiasm the German team shows for working with this another year. We all give them big applauds!

To be positive is extra important in these days. We wish the German team all luck, cross our fingers and indeed hope" third time's a charm".

As soon as the dates for 2023 are settled we will come back with information.

The warmest greetings from

The Skilex International Board

PS. The board of Skilex International was elected for two years in Rogla in 2020. With the kind of "force majeure" situation we have when we cannot arrange the congress this year, the board elected in 2020 are willing to serve one more year, until 2023. DS.
